

Import/export

Borderless service

Whether you're sending goods to Switzerland from outside the country or vice versa, Swiss Post will take care of all your small consignments, partial and full truck loads. Our service is fast and reliable. All import/export customs clearance takes place in Switzerland. And all from a single source.

Whether you're looking to import goods into Switzerland from outside the country or want to export Swiss goods abroad, we have the perfect solution for you. If you wish to send a consignment from Switzerland, we'll collect it from you, and our partner in the relevant country will deliver it to the recipient. The reverse procedure applies to shipments from abroad. In both cases, we take care of customs clearance and you have a single contact: Swiss Post.

Easy customs clearance

As an authorized recipient and sender, we clear your goods directly at one of our logistics centres, thus saving you long waits at the borders as well as unnecessary transshipment. Our experienced customs agents ensure speedy, correct customs clearance of the goods delivered. What's more, you are also free to deliver your goods personally to one of our logistics centres – when returning an item for shipment abroad, for example.
