POSTING CONSIGNMENTS AT PICKPOST POINTS

The pricing at the service points/PickPost points is determined by the parcel size (M, L and XL) and not by weight as it is in the branches.

The following prices apply:

Return shipment using a shipping label from the mail order company

In this case, two options are available.

– Shipping label with the remark “GAS” = free return shipment

Parcel consignments which bear the “GAS” label (business reply label) and already have a basic barcode affixed. In this case, the recipient will assume all the costs for returning the consignment.

Dispatch takes place without charge.

– Shipping label with consignment barcode, beginning with the digits 99.01... = shipping charges discounted by CHF 1.50

Parcel consignments addressed to a mail order company (e.g. Spengler, Jelmoli, VAC, etc.). The consignment already bears a pre-printed shipping label with a consignment barcode that begins with the digits 99.01.... The consignment is taxable and must be paid by the mailer.
