9. Blocking

The requirements for blocking the PostFinance Checkout product within the meaning of the PostFinance Checkout Subscriber Conditions shall also apply to the BillingOnline payment solution.

10. Retention and deletion of data

Proper delivery of the service requires that certain data be stored in the payment solution for the duration of the cooperation.

After the cooperation has come to an end, Swiss Post shall not be obliged to store or archive information relating to the Subscriber.

11. Liability

The Parties are liable for all damages inflicted upon the other respective Party in connection with this Contract, unless they can establish that they are not at fault. Liability for slight negligence is excluded to the extent permissible by law. Their liability for direct damages is limited to the amount of the evidenced damages. They are not liable for indirect damages, consequential damages, loss of data, third-party claims or loss of profit in the event of force majeure. The complete or partial invoicing of expenses, costs and reimbursements incurred by or charged to the Subscriber as a result of non- or inadequate performance by Swiss Post (e.g. in connection with the processing and settlement of end-customer complaints concerning end-customer payments that were processed incorrectly by Swiss Post) shall remain reserved. The invoicing by the Subscriber is limited to a total of no more than CHF 50,000 for each current calendar year.

Swiss Post will also not accept liability for any improper functioning of third-party systems, particularly including the Internet, the software used by the Subscriber and the Subscriber's e-mail.

Swiss Post will not accept liability for damages or losses resulting from transactions involving incorrect information provided that the incorrectness is not the responsibility of Swiss Post.

A contractual penalty owed by the Subscriber to a third party cannot be claimed from Swiss Post as damages.

The Parties shall bear liability for the conduct of their vicarious agents, third parties engaged by them (e.g. acquirers, payment service providers, subcontractors, upstream suppliers) and substitutes in the same way as for their own conduct.

The Subscriber shall bear liability for damages or losses incurred by Swiss Post or third parties (e.g. acquirers, credit card institutions, payment service providers) through the Subscriber's improper (non-conforming or unlawful) use of BillingOnline. The Subscriber undertakes to fully indemnify Swiss Post against third-party claims brought directly against Swiss Post in relation to a culpable improper use of BillingOnline by the Subscriber. Swiss Post shall inform the Subscriber immediately of any such claims.

12. Data protection and data and information security

When collecting and processing personal data, Swiss Post complies with the current legislation, especially data protection law and the Postal Services Act. It safeguards the data of the Subscriber with suitable technical and organizational measures and treats it confidentially.

It collects, processes and stores personal data only to the extent necessary to provide these services, for the security of operations and infrastructure, for invoicing, and to manage and maintain customer relationships, namely to ensure a high quality of service.

In order to safeguard the payment solution and personal data it contains, Swiss Post takes appropriate technical and organizational measures to prevent unauthorized processing and, in particular, unauthorized access. It applies the respective standards and methods prescribed by the providers for the payment methods offered as part of the payment solution.

Subscribers are solely responsible for the systems and data processing in their sphere of control as well as for their security and protection. Subscribers are responsible for informing end customers of data processing in connection with the BillingOnline payment solution.

In particular, they assure Swiss Post that the data they supply to the payment system is correct and that they will deliver payment orders to the payment system only for services that have actually been rendered. Subscribers are prohibited from storing or otherwise processing data relating to means of payment outside the systems provided by Swiss Post.

13. Responsibility of the Subscriber

If Subscribers process third-party data in their online shop in their capacity as an online retailer, they are exclusively responsible vis-à-vis the data subjects.

14. Involvement of third parties (processors)

Subscribers agree to Swiss Post involving third parties to render services and supplying the necessary data to the third parties involved. Swiss Post undertakes to select, instruct and monitor such service providers in a prudent manner.

15. System operation

Payments using various payment methods can be processed via BillingOnline. A bug in the system of individual payment methods (e.g. the credit card payment system, PostFinance Card and PostFinance E-Finance, TWINT or a payment service provider) can have a direct effect on BillingOnline. Swiss Post cannot guarantee any resolution times in this respect. Should Swiss Post determine that the bug is not within BillingOnline, it is obliged to take measures within reasonable bounds.

16. Amendments to the GTC

Swiss Post reserves the right to amend the SC BO and range of services, or to cease services, at any time. Except in the case of urgency, the amendments shall be announced in a suitable manner beforehand. In the absence of written objection within one month of notification, the amendments shall be deemed to have been approved.

17. Severability clause

Should individual provisions of these GTC be invalid, incomplete or unlawful, or should performance be impossible, this shall not adversely affect the effectiveness of the other parts of the contract. In this case, the Parties shall undertake to immediately replace the clause in question by an admissible effective clause whose content comes as close as possible to the original intention, unless this conflicts with consumer protection provisions.

18. Assignment of rights

The assignment of the contract or of rights or obligations pertaining to this contract shall require written consent from both Parties. Swiss Post may assign the present contract or rights and obligations arising from it to another company without the Customer's consent provided Swiss Post controls the company directly or indirectly. Furthermore, Swiss Post is entitled to transfer or assign contracts or claims arising from it to third parties for collection purposes without the Customer's consent.

19. Applicable law and place of jurisdiction

The contract is governed by Swiss law. The UN Convention on Contracts for the International Sale of Goods (CISG, SR 0.221.211.1) shall not apply.

The place of jurisdiction is Bern. This is subject to the proviso of a partially or fully mandatory place of jurisdiction (cf. in particular Articles 32 and 35 of the Swiss Civil Procedure Code for consumers). Unless otherwise agreed, Bern shall also be the place of performance and the place of debt collection for customers who are not resident in Switzerland.

20. Legal form of publication

The legally binding SC BO which constitute an integral part of the contract are published electronically and can be viewed at www.swisspost.ch/billingonline-subscriber-conditions.
