

Swiss-Express “Innight” – Medica

Tailored overnight logistics

Do you rely on medical products or devices being available in the morning before the working day begins? Swiss-Express “Innight” provides you with overnight logistics tailored to your needs. We collect your consignments in Switzerland and abroad at the agreed time in the late afternoon or evening and deliver them, for example, to the hospital reception or the operating room door. We ensure that your consignments are right where you need them.

Following-night delivery

We collect your goods in Switzerland and abroad, or you deliver them to our logistics centers. Delivery is made throughout Switzerland and the Principality of Liechtenstein by 6 a.m. on the following day or as agreed. We take care of all customs clearance for you.

Returns

On request, we will also take returns with us on delivery or collect them in the early evening from over 220 hospitals.

Delivery point and key management

Delivery is made to an agreed delivery point. This can be the pre-op area, the operating theatre door or handed in directly at the reception. We already manage delivery points, anonymized keys and badges for over 220 hospitals in Switzerland. You can manage delivery points online.

Consignment data

You send us your consignment data electronically via Swiss-Express Web or EDI interface by 9 p.m. Shipping labels can also be printed out for each of your consignments via Swiss-Express Web. In addition, daily reports are made available to you, so that you can be sure of our high quality and reliability.

All consignments are scanned when they are accepted, when they arrive in the logistics center, when they are loaded, upon delivery, as well as upon return delivery.

The delivery point is also recorded. You can view all these events in Swiss-Express Web, so you know where your consignments are at all times.

Carbon-offset delivery with “pro clima”

Good for the climate, good for your image: “Innight” consignments are carbon offset. This helps both the environment and your company. www.swisspost.ch/climate

Dangerous goods consignments

Consignments of dangerous goods up to 1,000 ADR points can be sent via the Innight channel.

You can send the following with Swiss-Express “Innight”:

- Goods that are not subject to relevant regulations governing the transportation of dangerous goods. Exception: goods in accordance with the “LQ” or limited quantity exemption
- Goods with a maximum length of 250 cm and a maximum girth (longest side and circumference) of 400 cm
- Goods that are packaged securely for transportation and the nature of which does not constitute a threat to the environment or to the health and safety of Swiss Post employees

"Innight" Medica – for suppliers

Your products or technical devices need to arrive punctually and within a short space of time at the hospital or physician's practice. You also need your operating equipment back just as quickly. To keep your stocks low, you need collection or delivery on a regular basis. We bring your consignments to the pre-op area or the operating theatre door at the right time in accordance with your internal provisions. We pick them up from there accordingly. Consignments and returns are handled in a standardized manner that is easy for both you and the recipient. We collect your consignments between 4 p.m. and 8 p.m. from over 220 hospitals in Switzerland.

The benefits for you

- Quick turnaround times for your equipment
- Delivery at the right time direct to the place of use
- Easy, standardized handling of consignments and returns
- Continuous track and trace
- Carbon-offset delivery with "pro clima" – good for the climate, good for your image.

Collection/delivery (Monday to Friday)

- Transfer of consignment data via Swiss-Express Web or EDI interface
- Collection in Switzerland and abroad during the late afternoon or evening
- Delivery to our logistics centers in Niederbipp

Delivery (Tuesday to Saturday)

Throughout Switzerland and the Principality of Liechtenstein on the same night or individually according to recipient

"Innight" Medica – for hospitals

The required instruments, implants or technical devices are available to you at the right time. This extends the time window available to you for your operations and makes it easier for you to comply with the sterilization requirements.

The benefits for you

- Quick turnaround times for your equipment
- Delivery at the right time direct to the place of use
- Focus on your core competencies
- Reduced stock levels and less tied-up capital
- Carbon-offset delivery with "pro clima" – good for the climate, good for your image.

What's included in the service

- Customized solutions for a variety of sectors
- Online consignment tracking
- Proactive customer service

Additional services

- Fast, straightforward returns
- Import and export customs clearance
- The maximum permissible load may vary depending on the type and nature of the consignment, and is agreed upon on a case-by-case basis
- Carbon-offset delivery with "pro clima"
