

# My Post 24 locker

## Longer opening hours for your store

Leave goods or products for your customers in the My Post 24 terminals. This means you can effectively extend your store opening hours and offer your customers easy, alternative access to purchases and orders.

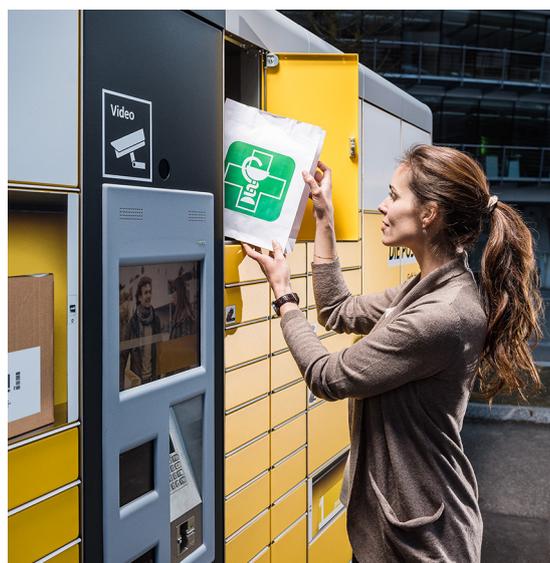

Do you operate a store near a My Post 24 terminal? Would you like to offer your customers an alternative collection location for your goods and products? Then you may be interested in the locker function at My Post 24 terminals. With this option you can offer your customers a new, flexible solution: products, orders and purchases are available around the clock.

The lockers are very easy to use. When you rent a terminal locker, you are given two collection codes. Forward these to your customers via SMS, e-mail or in person, who then have seven days to collect the goods or products that have been stored for them. Only the person renting the locker needs to have a Swiss Post user account and to activate the My Post 24 service. The recipient only needs the two locker collection codes.

The following payment options are available:

- The renter pays the entire rental fee.
- The customer pays the entire rental fee when collecting the goods.
- Both parties share the rental fee. So for example, the renter may assume the costs for two days and the customer pays the rest, with a maximum rental period of seven days.

These lockers are particularly suitable for stores such as pharmacies and drug stores that sell goods for emergencies, as well as for retail stores or even technicians who wish to store spare parts in the lockers.

### What is My Post 24?

You can use My Post 24 to send and receive parcels and registered letters easily around the clock. There is just one condition: you need to have a Swiss Post user account and activate the My Post 24 service.

Free registration: [swisspost.ch/customer-center](http://swisspost.ch/customer-center)

You can find terminal locations and more information at [swisspost.ch/mypost24](http://swisspost.ch/mypost24).
